What They've Experienced

Most children come to us having experienced trauma, which can lead to significant negative outcomes. These include poor physical and mental health, substance abuse, and risky behaviors.

89%
of children
experienced one
or more trauma
in their life

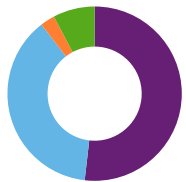

- 51%** had a family member who was depressed or mentally ill for a long time.
- 48%** had a family member who was put in jail, or prison, or taken away by the police.
- 47%** had a family member of someone very close to them who died unexpectedly.
- 45%** were completely separated from their parent(s) for a long time; in foster care, living far apart, or never seeing the parent again.
- 40%** were threatened or harassed by a bully (someone outside of his/her family).

What They Want

When children begin services at The Children's Home they set goals, using their own words to articulate what they hope to accomplish.

How We Invest

The investments we make in our practices and our staff are the foundation for the support children and families need to achieve positive outcomes.

Best Practices

Below are just a few examples of our best practices.

Accreditations & Certifications

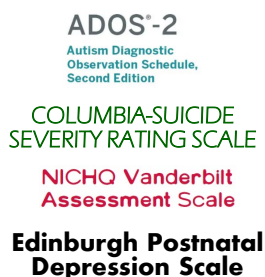

Evidence-Based Interventions

Valid & Reliable Assessments

Assessments are used to understand where the client is when beginning services and how they improve over time. We use more than 40 instruments across our 30+ services.

Best People

Licensed & Credentialed

Our direct service staff hold a variety of licenses and certifications, including:

- 39 Licensed Teachers
- 36 Certified Educational Aides
- 1 Applied Behavior Analyst
- 6 Medical Doctors
- 2 Nurse Practitioners
- 86 Licensed Therapists
- 50 Independently Licensed Therapists
- 17 Certified Home Visitors

How They've Improved

Our full array of services – from early childhood home visiting to job training – improves the lives and futures of the children and families we serve, building a strong foundation for life.

75%
Improved
Behaviors

Behavioral health and education clients significantly improved their behaviors, as measured by the Strength & Difficulties Questionnaire.

Advanced
2
Grade
Levels

Our students advanced 2.3 grade levels in math and 2 grade levels in reading in one academic year, as measured by Star Math® and Star Reading®.

93%
Increased
Language
Skills

Young people in our CoStars preschool program demonstrated progress in cognitive and language skills, as measured by the Galileo® Pre-K.

100%
Graduated

Seniors earned the credits necessary for graduation.

92%
Socially
Emotionally
Healthy

Children who participated in our afterschool enrichment program demonstrated the social emotional skills necessary for success, as measured by the Devereux Student Strengths Assessment (DESSA).

Positive Feedback

I seriously wouldn't have graduated without the help I received at The Children's Home. – Client

Brandon is more confident and caring towards others and their feelings. – Parent

My daughter has learned to control her outbursts and use her words to express herself. The Children's Home is a blessing and 100% saved my family. – Parent

He wouldn't be where he is today without The Children's Home. They do a wonderful job! – Parent

The Family Visitation Center is creating a lasting and powerful impact on children and parents. Kids thrive when they experience positive interactions with their parents. The center provides a safe, family-like setting for parents to visit with their children. This program builds trust between the parents leading to effective co-parenting. I applaud The Children's Home and attorney Randy Bloch for bringing this successful program to our community. – John Williams, Administrative Judge, Hamilton County Juvenile Court

Partnership Matters

Without our school and community partners we could not achieve our mission of creating lasting results that strengthen families and our community by guiding individuals – from infancy to independence – through comprehensive education, behavioral, and health services.

Lasting Results

It is well documented that our clients make significant improvement when they are with us. Our 12-month longitudinal study shows that not only do they sustain those gains, they continue to improve.

55%

of children had fewer difficulties in their life 12 months after completing services; and, the difficulties had less of an impact on their daily living

97% in school, receiving job training, or employed

94% making passing grades in school

96% staying out of trouble with the law
