POSITIVE RESULTS

88% of children in our Early Development and School Readiness programs improved their academic skills.

91% of clients treated in our Pediatric Urgent Care program were diverted from visiting the hospital emergency department.

96% of high school seniors (25 of 26) earned the credits necessary for graduation.

95% of all clients were satisfied with the services they received.

LASTING CHANGE

It is well documented that our clients make significant improvement when they are with us. Our 12-month longitudinal study, started in 2009, shows that not only do clients sustain those gains, they continue to improve.

67% of children had fewer difficulties in their life 12 months after completing services; and the difficulties had less of an impact on their daily living.

92% in school, in job training, or employed.

86% making passing grades in school.

92% with no involvement in the criminal justice system.
