

## **COSTARS** **EARLY CHILDHOOD SERVICES**

Date: October 27, 2025

Dear Parents and Caregivers,

We are excited to announce the launch of a new reading program – Future of Reading – that will be offered through the CoStars After School Enrichment program at Oyler Elementary School, Roberts Academy and Mount Washington Elementary School, starting on October 28 2025. This program will be offered 3 times per week to children kindergarten through 3<sup>rd</sup> grade. This program is specially designed to strengthen your child's reading skills and support them in reaching grade-level proficiency.

What the Program Offers:

- **Customized Learning:** Each child will receive a personalized lesson plan, tailored to meet their individual needs and advance their reading abilities.
- **Technology-Enabled Learning:** The Future of Reading utilizes a combination of video lessons and workbooks designed to provide students with a learning experience similar to a 1:1 tutoring session. Students will engage with their lessons using Chromebooks, making learning interactive and accessible.
- **Dedicated Support:** A reading coach will work closely with your child, offering one-on-one sessions to monitor progress, ensure understanding of the material, and provide guidance and encouragement.
- **Self-Paced Progress:** The program allows each student to proceed at their own pace, ensuring they fully grasp each concept before moving forward.
- **Parental Involvement:** Your support is crucial. We encourage you to engage with your child about what they are learning in the program. Ask them about the new words, phrases, and stories they are reading.
- **Access to Online Resources:** You will have the option to access the online lessons, enabling you to be more involved in your child's learning journey.
- **Regular Updates:** Stay informed about the program's content and your child's progress with regular updates from us.

Your involvement is key to your child's success in this program. By encouraging and showing interest in what they are learning, you reinforce the skills they are developing. This support is invaluable in fostering a love for reading and learning in your child.

We are committed to providing your child with the best possible learning experience. Together, we can make a significant difference in their academic journey. If you have any questions or need further information, please feel free to contact us at [kblake@costars.org](mailto:kblake@costars.org)

Thank you for your support and cooperation.

Sincerely,

Katelynn Blake  
CoStars School Age Supervisor
